PROFILE

Driven by a passion for problem-solving, I thrive in team environments where diverse ideas can coalesce into innovative solutions. I am unafraid taking unconventional approaches, enjoy thinking outside-the-box, and I am consistently eager to explore different angles and avenues. With a quick grasp of new concepts and the ability to empathize with various stakeholders, bringing a fresh, dynamic perspective to the web development sphere.

- Node.js
- Bootstrap
- Wordpress
- SEO & SEM
- Git, Github
- Docker
- SCRUM

EXPERIENCE

FOUNDER & GENERAL MANAGER

Vocasa Music Group OG

03/2011 - 03/2023

- Created and maintained the web appearance, from logo design to building and deploying the website. Utilized SEO and SEM techniques to improve visibility and brand awareness.
- Used PHP, WordPress, and WooCommerce to create a billing system, resulting in cost and time savings and reducing the potential for errors.
- Led a team of over 10 teachers, hosted regular meetings, and organized team-building activities.
- The growth of the company into one of Vienna's largest private music schools was largely driven by my robust problem-solving abilities, proactive approach, and rapid adaptability to new situations.

EDUCATION

LE WAGON BERLIN

Full-Stack Web Development

03/2023 - 06/2023

42 WOLFSBURG
